It's time for another Pre-Owned Wheels section, brought to you by the award-winning Editorial writers and editors of Wheels, the No. 1 auto website in Canada, and wheels.ca, the pre-eminent Canadian auto website.

In this issue, which comes out in The Star on Thursday, June 17, features a timely look by journalist Mark Toljagic at the issue of Lease Busting. We'll tell readers just how good the various services are the find buyers for your leased vehicle. Mark also advises on what's involved with getting out of a lease before its time is up.

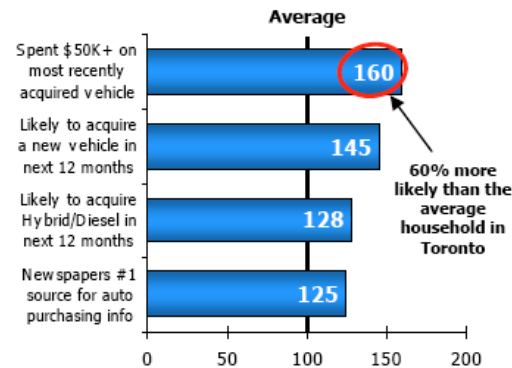

Jill McIntosh, one of our most popular Wheels columnists, writes about the BEST car she ever owned - a used 1978 Chevy Bel-Air.

Bill Hamilton of Hamilton's Corner Garage in Guelph, who specializes in old Volvos (and yes, he sells them too).

Finally, for those looking for family transportation, Toljagic does the comparison of five recommended stations wagons.

In addition to running in the Thursday Star, our second largest paper of the week, all of this content will appear on wheels.ca.
